**Deduct Meters: NOTE - NEW DEDUCT METER POLICIES - PLEASE READ!**

Customers are permitted to purchase and install, at their expense, sealed meters to measure water flow that does not enter the PCSA sewer system. Examples: watering lawns/gardens, filling pools, washing cars. All meters must be inspected and approved for use. **All customers must enroll in the Deduct Meter Program in order to be considered for outside usage credits. (see following details)**

**New Deduct Meter Owners:** New deduct meter owners must register their meters by application and payment of a \$75.00 establishment fee to PCSA. This fee includes the initial meter verification and reading and the first annual meter reading to be done in the Fall of the following year. The annual reading required will be a \$25.00 fee added to your account. Annual readings will be done in the Fall of each year or other time the Authority deems appropriate. These readings and verifications will be scheduled by appointment, after application and payment have been received by PCSA and will be performed by PCSA personnel or an authorized representative of the Authority.

**Current Deduct Meter Owners:** Current deduct meter owners will be charged a \$25.00 PCSA annual fee automatically added to your account. This fee includes the annual meter verification, reading and account processing.

**To be considered for outside usage credits all new customers must register their meters by completing a Private Deduct Meter Application and submitting the required fees to PCSA. No deduct meter credits will be given until the deduct meter has been registered, the appropriate fees have been paid and the meter has been verified and read by PCSA personnel or an authorized representative of the Authority.** Applications are available at the PCSA office.

**PCSA reserves the right to not issue outside usage credits when a discrepancy exists in the deduct meter, the verified annual reading or otherwise.**

**Pool Meter Loans:** PCSA has several portable deduct meters available for a maximum five-day loan to our customers. These are available on a first come-first serve basis and are mostly for filling your pool. There is a \$15.00 non-refundable calendar year fee. The \$50.00 deposit will be refunded if the meter is returned in acceptable / working condition and by the return due date. A Pool Meter Application for the outside usage credit must be completed by the customer at the time the meter is borrowed.

**Outside usage credits will only be considered for credit when measured by an approved deduct meter that has been verified by PCSA personnel or an authorized Authority representative.**
